Glassware Should Last for Many Years.

When glassware is treated with consideration it will last for a generation. but in the hands of a careless maid its beauty is soon marred by cracks or broken edges. When a few simple precautions are followed its brilliancy and flawless surface will remain for years in a state of preservation.

Tepid water, the best castile or other pure soap, and a stiff brush are first essentials. After washing and rinsing place the cut glass in boxwood sawdust. This will absorb the moisture in the cutting. Next remove the sawdust from the plain surfaces with a soft cloth. By following these directions the original clearners and sparkle of the glass will be maintained.

Shot should not be used in carafes cruets, toilet and similar articles. is very apt to scratch the glass, and thus mar its beauty. Prosaic potato peelings are the best aids. Let them remain in the glassware over night, and then rinse out with a little tepid water.

A very Important point is to avoid sudden changes from extreme heat to extreme cold, and vice versa. pitcher or tumbler which has been filled with ice water, a tray that has been used for ice cream, if plunged at once into hot water will be to crack. Use tepid water and the risk of breakage is avoided.

The sudden change from heat to is just as dangerous. Glassware should never be removed from a closed cabinet where it has become heated and brought immediately into contact with a cold substance. the glass for a time in water before subjecting it to the extreme tempera

### HINT ON CLEANING CARPETS

With a Little Care Soiled Floor Covering Can Be Made to Look Bright and Clean.

Many a housewife's heart aches when she notices spots which mar the beauty of her living room, carpet or bedroom carpet; but there is a way to remove them. Mix together a quantity of fuller's earth and enough boiling water to make a paste. Apply this mixture to the grease spots while it is quite hot and do not brush it away until it is thoroughly dry. Equal quantities of magnesia and fuller's earth moistened with boiling water will prove especially efficacious if applied to the spots.

If carpets are very dirty, they may be successfully washed in the following manner:

To every two gallons of boiling wa ter add one ounce of yellow soap and one dram of soda. With a clean flannel, dipped in this liquid, wash the carpet well, doing a small portion at a time. Rinse with clean hot water and allow the carpet to dry. The colors will be greatly improved by after ward applying a cloth dipped in ammonia.

### Spanish Potatoes.

Cook medium-sized potatoes in their skins; when almost done turn into cold water for a few minutes, peel and place in a baking tin; chop a small onion fine, add one-fourth teaspoon of savory herbs, a little pepper; sprinkle over the potatoes; cut two or three slices of salt pork and lay over the whole; put one cup of warm water into tin and bake to a nice brown.

### Novel Orange Jelly.

Mix together two tablespoonfuls of elatine with a large cupful of orange juice, one orange peeled and sliced very thin, the juice of one lemon, two cupfuls of sugar and one pint of boiling water. Let it stand after mixing it well until it is cold. Then strain it and store in the beaten whites of The latter give a pretty two eggs. and frosty effect to the jelly.

### Fig Loaf.

Put one cup pulled figs, washed thoroughly, in a double boiler with one and a half cups cold water. until tender and add half cup sugar and cook 10 minutes longer. Strain off the syrup and keep three-fourths cup hot. Put one tablespoon gelatin to soften in one tablespoon cold water, then dissolve in the hot syrup. Chop the figs fine, mix with one and a half cups fine breadcrumbs and add the hot syrup and gelatin. Stir well and pack into a well buttered mold. Set away to cool. Serve with whipped cream.

Cicaning Glasses. Tumblers which have been used for milk should always be rinsed in cold water before they are washed in hot. When this is done the milk does not stick to the glass, and there is no danger of their looking cloudy.

### Mexican Fishballe,

Equal parts of codfish and mashed thoroughly mixed with cooked red beets chopped fine; mold into balls, brown in the fat of sait pork and garnish with the crisp bits of fried pork.

## PROPER CARE OF CUT GLASS EXPERIENCE OF MOTHERHOOD

### Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or un-derstands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes ( once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### REFUSE TO MEET STRANGERS

Peculiar Method of Trading Indulged In by New Guinea Tribe Who Keep to Themselves.

No European has ever been able to meet in their own dwelling place the Kukuhuhus, a shy, yet ferocious tribe of New Guinea. Other tribes of the country, while they have a great fear of the Kukuhuhus, manage to do a bartering trade with them. They bring salt, earthenware, dried fish, etc., and deposit them in a certain indicated place. They then retire for a few hours, being notified to do so by a curious cry from the distance. The mountain dwellers then descend to view the goods offered for sale. If they want them they put down other goods, such as skins, feathers, and other jungle produce, next to those articles wanted by them. Then they retire in turn, and when the way seems clear the coast dwellers at proach again. If the latter are satt fled with what is offered in exchang they take the goods put down by t mountain people and go away; If I it satisfied they retire again as before with empty hands.

### ECZEMA SPREAD OVER BODY

R. F. D. No. 1, Lewisburg, Ky .- "Fifteen years ago I was badly affected with eczema upon my scalp first, then it spread all over my body and continued to grow worse for four years. It began with a dry rash. After formon ba forced me to scratch the scabs off and the hair would come out with them. Upon my face and body would get inflamed and they disfigured my face. It was worse where my clothes irritated them. The eruption was a yellowish watery kind, sometimes bloody. In warm weather it was so bad I was not able to work on account of the raw irritating sores on my head and body

"After trying various medicines without relief I tried Cuticura Soap and Ointment. After using four cakes of Cuticura Soap and four boxes of Cuticura Ointment and one bottle of the Resolvent I was entirely sound and well and have been for eleven years." (Signed) W. H. Williams, Mar. 19, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston."

He's a bad citizen who can't get a good obituary notice.

wife happy by leaving home.

### **GOOD TIMES IN CANADA**

BUSINESS PROSPERING, TRADE INCREASING AND FINANCES

The present tightening up of money must not be looked upon as being in any sense brought about by financial stringency. It is really more a period of stock-taking resorted to by banks to ascertain the true condition of the finances and trade of the country. Legitimate business enterprises are not affected. Throughout the States there are those who if allowed to continue borrowing, would inevitably be a means towards precipi-tating something a good deal worse they feel now. In Canada, the conditions are excellent, and it is safe to say business was never bet-The pulse of trade is carefully watched by the Finance Department of the Dominion government, and it is illuminative to read portions of the address of Hon. W. T. White, the Finance Minister, delivered a few days ago before the House of Commons Mr. White's remarks are in part as folloy

"It falls agreeably to my lot to exenjoy. the splendid total of \$168,250,000, or the magnificent growth of the Dominion may be gleaned from the fact that riod of one year almost equals the entire revenue of the country seventy

irregular, spasmodic or intermittent in its nature, but has steadily characterized each month of the entire fiscal year. It was of course mainly derived from Customs receipts, but the other

"That in a period of great financial stringency not only have we not been obliged to resort to the congested markets of the world, but have been able to reduce so substantially (\$23,000,000) the debt of the Dominion, must be a matter of gratification, both to the House and to the people of Canada.

"I believe that during this period of exceptional money stringency the credit of the Dominion as reflected in the quotations of its securities has maintained itself among the highest in the world."
